• The electricity bill is composed of two parts: a fixed subscription charge (independent of consumption) and a variable charge (proportional to consumption).

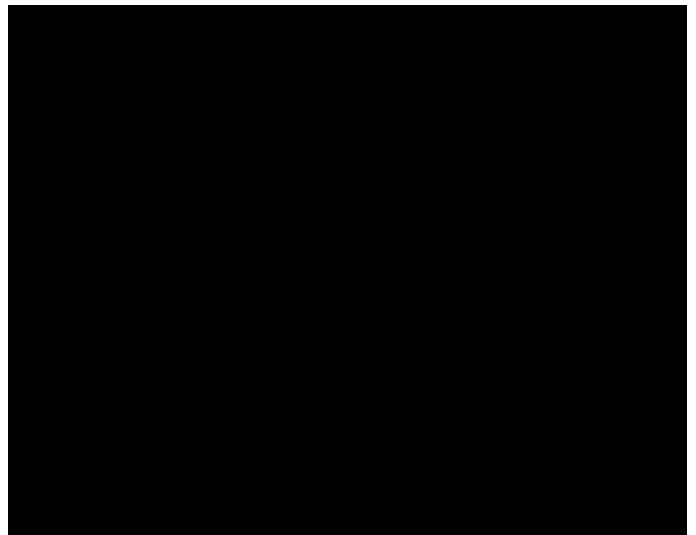

- <https://en.selectra.info/energy-france/guides/electricity>
- Your electricity bills will contain two charges – fixed subscription charge, per kWh rate

E

If I've imposed on you to keep you locked with you all time and you always have you door locked, when you are home you . Many door in France lock from the inside using the key and many have an additional deadbol lock. Having in you once only cover the if the door was locked. Even if the door lock automatically, it should always be deadbol locked.

Lock-out in Paris can be a very costly solution and may take a very long time; therefore, take extra caution to keep track of you key !

- Locksmith do not work 24/7, so if you get locked out after business hours, you might not be able to arrive until the following day.
- If you require a service out of business hours, the locksmith can charge (and they often do) excessive fees.
